## Corporate & Personal Branding

How would you like to be  
photographed?

Hello, and thank you for contacting KLH Photography for your professional headshot session! We will work with you to make sure we capture the message you want to communicate to your intended audience. We will do this by discussing what the images are going to be used for, who the intended audience is and how you would like to be portrayed. I will also answer any questions you may have about choosing your outfits and/or what backdrops we should consider.

If you decide to include hair and/or make-up services then on the day of your session you will start with those services and from there we will choose your first outfit. With my expertise, I will guide you into poses that are the most flattering for you while ensuring that your hair, outfits and jewelry are all in their proper places. This session usually takes approximately 1.5 hours from beginning to end.

## Clothing, body language and expression all contribute to your brand.

Your personal brand or company usually determines the style of portrait we create. For example, you may wear a suit and tie if you're a lawyer or you may wear something more relaxed if you're an interior designer and pose with an inviting, relaxed demeanor. Your body language is important. What do each of these people's expressions say to you? Did they come to my studio knowing how to pose like this? Nope. I will work with you to make sure we bring out the message you wish to convey to your intended audience.

I suggest bringing about 5 outfits to the shoot; ironed and stain-free  
Solid colors are best.

Wear minimal jewelry, we want the focus on you, not your bling.  
Unless of course you are a jewelry designer.

## What else can we do for you?

### *Do you need banners for your social media business pages?*

We can create you a banner for your Facebook and/or LinkedIn business page. These banners include an image of you and any text you'd like to include, i.e., the name of your business or a promotion you are currently having.

Similar to Facebook and LinkedIn, Instagram has size and dimension guidelines for images. We can help create a promotable image for your Instagram business account.

## What happens after the shoot?

Approximately one business day after your shoot, you will receive a link to a gallery of your images where you can choose the ones that you love. I will lightly retouch them and provide them to you in full resolution in both color and black and white.
